A Commitment to Recycling

- Personal commitment – recycling at home
- How to convinced your team/owner to start recycling....it can save you \$\$\$
- Not all staff are personally supportive...but it's the law at Mie N Yu!

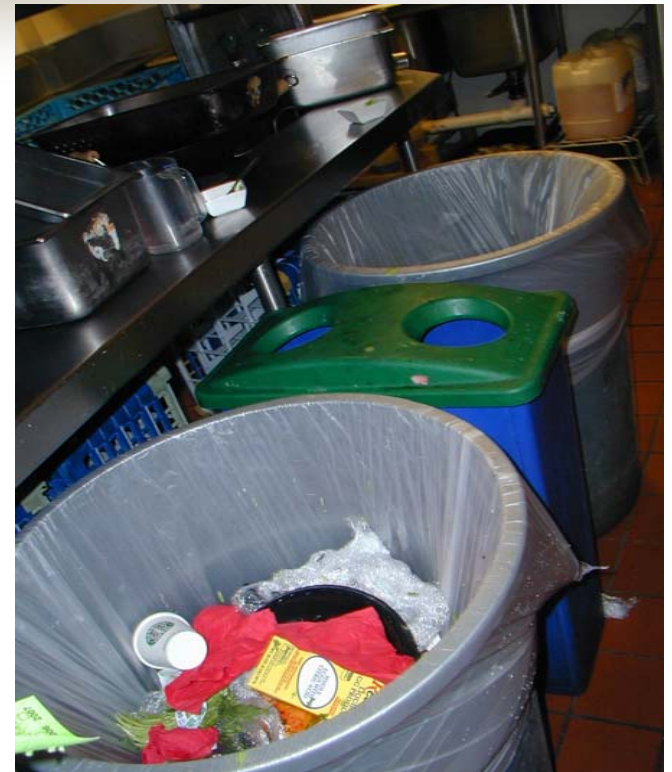

Front of the House

- All servers and bartenders – separate commingled items from regular trash and hold in designated containers in service stations and bars
- When containers are full, staff remove and empty into large containers in alley

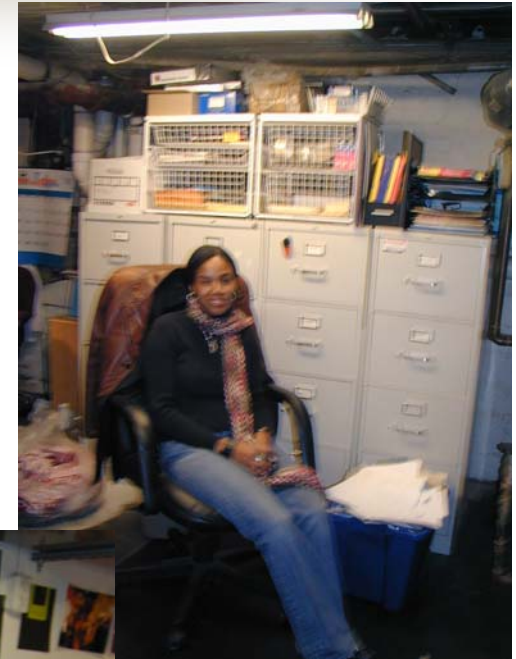

Back of the House

- Commingled items and cardboard (no wax) is separated from regular trash by food preparation staff in both kitchens

Back of the House

- Managers and office staff recycle commingled items, cardboard and paper ink jet cartridges... and more

Back of the House

- Mixed paper & Cardboard
- Commingled Containers
- Oil & Grease

Recycling Recovery Rates

- Cardboard = 6 cubic yards per week
 - Approximately 48 tons per year
- Commingled Containers = 14 cubic yards per week
 - Approximately 297 tons per year

Cost Savings

- Monthly cost for trash collection prior to recycling = \$1233.00
